

CopperHead[®] Max 12:4:14 Mineral

Product number: 10877

Product Information

- Loose mineral supplement scientifically designed to combat copper deficiency in cattle
- Contains 14% magnesium for the prevention of grass tetany
- Contains 2500 ppm copper for enhanced copper nutrition
- Helps counteract copper deficiency symptoms including:
 - Rough, discolored hair (black cattle with red tinged coats)
 - Slow shed out in spring
 - Slow breeders
 - Poor immunity
- All CopperHead minerals contain organic chelated sources of zinc, manganese and cobalt, as well as copper
- Enhanced levels of trace minerals for maximum productivity
- Highly palatable mineral ideal for reproductive and growth performance
- Contains RainBloc for increased resistance to moisture
- Ideal for lactating brood cattle on lush spring or fall pastures in areas with known copper deficiencies

Feeding Instructions

CAUTION: USE AS DIRECTED. Consumption of selenium should not exceed 3 mg per head per day.

WARNING: This product, which contains added copper, should not be fed to sheep or any species that have a low tolerance to supplemental copper.

Feeding Recommendations:

SWEETLIX CopperHead Max 12:4:14 Mineral is scientifically formulated to be self-fed to beef cattle on pasture.

SWEETLIX CopperHead Max 12:4:14 Mineral helps your animals attain maximum performance by providing a balanced intake of supplemental minerals and vitamins.

Mature beef cattle should consume 4 ounces per head per day. Four (4) ounces of this product provides 3 mg selenium and 16 mg magnesium. Provide one covered mineral feeder for every 20 to 30 animals. Locate each mineral feeder near a clean, fresh source of water. Mineral consumption levels will vary depending upon the mineral status of the animals. Provide fresh, clean water to all animals at all times.
