

TECHNOLOGY FOR IMPROVED HEALTH AND PERFORMANCE

Added **BioPlex**[®] organic trace minerals are easily absorbed and readily metabolized by the animals

- Supported by more than 21 years of research
- Provides mineral nutrition in a the same form found in plants
- Easily absorbed, readily metabolized
- Excellent sources of essential copper, manganese, zinc and cobalt
- Greater bioavailability than inorganic minerals

CONVENIENCE

Because EnProAI[®] weather-resistant poured supplements come in their own containers, there is no need for expensive feeders or bunks. Conveniently-sized tubs or boxes effectively and efficiently feed cattle for days without maintenance.

CUSTOMIZE YOUR SUPPLEMENT PROGRAM

For optimum livestock performance, match EnProAI[®] poured supplements with one of a wide variety of SWEETLIX[®] loose mineral or pressed block products to meet your specific mineral nutrition needs and production goals.

EnProAI[®]

TECHNOLOGY

Poured Supplements

SWEETLIX® EnProAI® Poured Supplements offer optimum versatility and convenience. Available in multiple sizes to meet your needs, you can add any of our protein products to your current SWEETLIX® mineral for a balanced nutritional program.

Stand alone medicated and fly control options are also available as are mineral supplement options.

Design an EnProAI® Poured Supplement Program that WORKS FOR YOU.

FEATURES AND BENEFITS

- High magnesium levels aid in reducing the risk of grass tetany
- Helps improve forage utilization, increasing production efficiency
- Consistent consumption improves performance and profits
- Excellent weatherability reduces waste and saves you money
- No clay binders or non-nutritive fillers
- Highly palatable blocks keep cattle coming back for more
